

TIME

Alessia Selini

Today is pretty cold
Today is pretty cold outside
The sky is full of clouds
And they are also in my mind

Even my hands are cold
I need a cup of tea to hold
I need to know
But looking through the window

Streetlights are off out on the road
I have the map, so why am I lost?

**What if I stop time?
Only for a while
Only for this time**

I need to slow down
I need to slow down this time
Stop to look around
And take a look inside

Listen a little more
Though I have to close the door
I need to know
And let the sun back

And I don't know how long it will take
Things can be scary when they change

**What if I stop time?
Only for a while
Only for this time**

And I don't know how long it will take
Things can be scary when we change

**But what if I stop time?
Only for a while
Only for this time**

**What if I stop time?
Only for this time
Only for this time**

What if I stop time?
